## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 2-5, 7-38 are allowed.
2. The following is an examiner's statement of reasons for allowance: no prior art of record discloses or otherwise suggests a room lighting system as claimed in independent claims 20 and 26 with emphasis on and with respect to Claim 20 "...a light source defining a beam axis as well as two alignedly arranged refractive elements *having centers which are substantially located in the beam axis*, one of said refractive elements being *rotatably mounted* about said beam axis, wherein the second of said refractive elements is rotatably mounted about said beam axis...wherein a drive means and a control means are associated with the two refractive elements for selective rotation in the same sense or in opposite senses, wherein both of said refractive elements are prism elements..." and with respect to Claim 26 "...a light source defining a beam axis as well as two alignedly arranged refractive elements *having centers which are substantially located in the beam axis*, one of said refractive elements being *rotatably mounted* about said beam axis, wherein the second of said refractive elements is rotatably mounted about said beam axis...wherein both of said refractive elements are prism elements..."
3. The remaining claimed are allowable given their dependence on the above claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

4. BORNHORST (US 4,800,474) discloses two rotating elements with color filters wherein light passes through an outer periphery of the elements.
5. KOHEM (US 4,400,765) discloses a rotating drum that manipulates emitting light.
